EDUCATION

University of New South Wales

Sydney, NSW

Masters of Information Technology | WAM: 89.8

Aug. 2024 - Present

- Notable Courses: Algorithm Design (97%), Advanced C++ (96%).

University of Auckland

Auckland, NZ

Bachelor of Engineering (Honours) | 1st Class Honours

Mar. 2017 - Nov. 2021

- Awards: Summer Research Scholarship.

EXPERIENCE

University of New South Wales

Sydney, NSW

Casual Academic: Tutor for "Foundations of Computer Science" & "Data Structures & Algorithms"

Feb. 2026 - Present

- Tutored a group of 20+ students, with a focus on fostering a supportive learning environment.
- Facilitated interactive lessons on proof writing, set theory, number theory and graph concepts.
- Instructed students in software fundamentals, covering C programming alongside sorting and graph/tree traversal algorithms.

Structural Engineer

Australia & New Zealand

DBCE, Northrop, Dreamcast

Nov. 2021 - Jan. 2026

- Directed large scale design projects, coordinating architects, drafters, and construction workers.
- Acquired in depth project management and conflict resolution experience.

LEADERSHIP

Coffs Harbour Toastmasters

Coffs Harbour, NSW

President

Jul. 2024 - Dec. 2024

- Governed club operations and chaired executive committee meetings, managing task delegation across team members while mentoring individuals to develop public speaking and leadership capabilities.

Auckland University Boat Club

Auckland, NZ

Men's Captain

Jul. 2021 - Jun. 2022

- Managed a 30-athlete squad, optimising training regimens, coordinating logistics, and driving team execution to secure multiple national varsity championship titles.

PROJECTS

QuantSoc Discord Verification Bot | Javascript, PostgreSQL

Apr. 2026 - Present

- Collaborated in a team of three to build a secure, event-driven Discord verification bot utilizing PostgreSQL to manage state and safely automate user authentication on QuantSoc servers.

Structural Engineering Design Library | Python, Pytest, Sphinx

Jul. 2025 - Feb. 2026

- Created an open-source Python library automating structural masonry compliance calculations per AS 3700:2018, implementing rigorous unit testing with Pytest alongside comprehensive documentation via Sphinx.

Job Listings Web Scraper | MongoDB, Javascript, Docker

Jul. 2024 - Aug. 2024

- Built a containerized full-stack application that scrapes job listings from Seek, leveraging MongoDB to store dynamic data and power automated keyword frequency analysis via a web GUI.

TECHNICAL SKILLS

Languages: Python, C++, SQL, Javascript

Developer Tools and Frameworks: Git, Docker, Linux, TailwindCSS, Sphinx, Bash, AWS, MongoDB, Nginx
